

Legacy Quilt Club

The Legacy Quilt Club?

Just what you need - another club to join right? But this one is a virtual club and totally free! Better yet, you will get a free pattern each month for the next 20 months to make the famous Legacy Quilt. What is the Legacy Quilt and what prompted me to take this on?

First and foremost, I love traditional quilt designs. What I love even more is the challenge to put a fresh, contemporary spin on those timeless classics. The new Blendables (hand-dyed gradations from Ricky Tims Inc.) inspired this new journey and I hope you will come along for the ride.

The Back Story

In 2015 I enjoyed designing the blocks for our local production of, *The Quilters*. Most of the blocks in this quilt are used to intertwine the stories of pioneer women. The play reveals their hardships, their celebrations, and their tragedies.

I chose fabrics for the theatrical quilt to represent fabrics similar to fabrics that were from the pioneer days. The quilt shown here is the actual quilt from the show. It is presented horizontally because the stage was not large enough for it to be presented vertically.

LEGACY QUILT (2015), BLOCKS ARE 15" FINISHED.

Easy as 1•2•3

- 1 Get my Ricky Tims newsletter. Sign up for the newsletter at rickytims.com. This project will live under the EVENTS tab at rickytims.com
- 2 Each month the newsletter will provide a link to the page with the download. The downloadable and printable PDF will have the necessary templates and/or instructions for making the block. The pattern assumes the quilter has basic understanding of construction techniques and methods.
- 3 Our four colorways will be shown each month made from the Blendables. Everyone who participates will receive discount codes for 15% off of your purchase at the Ricky Tims Online Store.

Four Blendables Colorways

Each Blendables pack has six hand-dyed fat quarters. Each colorway is comprised of two coordinating Blendables packs (twelve fat quarters total) and a coordinating one-yard piece of background fabric. The background fabric is one of the regular Rhapsody fabrics.

The twelve fat quarters plus the full one-yard background piece (a total of four yards) will allow you to make several blocks. Blendables will remain in the web store so when you find you are starting to running low, you can simply order more. Purchasing fabric as you need it is easier on your budget. You don't have to buy all the fabric for the quilt at once.

Create Your Own Blendable

To create your own colorway, pick any two Blendables packs and a single yard of any color you wish. Blendables packs are also sold separately so you can create your own magic. Legacy Quilt Club participants get the same 15% off of purchases in the Ricky Tims Online Store

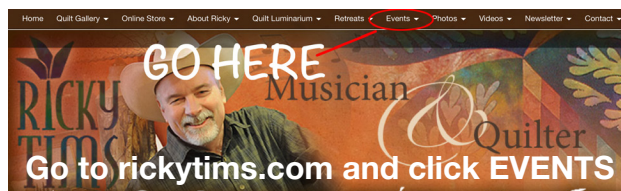

Yardages

Yardages needed for the quilt are not calculated. For those using commercial fabric, I suggest obtaining 4-5 yards of background fabric. Then, consider using coordinated scraps for the rest of the quilt to provide variety and remove any worry of running out of a particular fabric.

If you run low on Blendables fabric, simply order more. Blendables will remain in stock, or we will dye more for you right away. You won't run out of this special fabric.

Stop and Go

There's no requirement for making the blocks. Work at your own pace and let this be an ongoing side project while you are working on other projects.
